Office (860) 828-7022 • Fax (860) 828-7180

### Street Light Audit Project

The Town of Berlin is proceeding with a project to audit the current inventory of its street light assets and has contracted with Tanko Lighting, Inc. to facilitate the audit. The audit will commence during the last week of May and is estimated to last approximately two or three weeks. Trained auditors (wearing safety vests and traveling in marked vehicles) will capture data on each existing street light throughout the Town, including wattage and location coordinates. The data collected will enable the Town to determine the best design for its planned conversion to more energy efficient street light fixtures.

The audit phase of the project will be followed by a brief pilot phase, in which sample Light Emitting Diode (LED) fixtures will be installed and the public will have an opportunity to provide feedback on the sample fixtures' performance. For more information, please contact: Jim Horbal at 860-828-7022.
