Burnham Street Bridge Replacement Project

The Town of Berlin Public Works Department is coordinating a project to replace the Burnham Street Bridge. The Bridge was constructed in the 1950's, and during recent inspections performed by the State D.O.T., was identified as being in poor condition. Staff investigated available funding sources, and was successful in securing a Local/State Grant whereby 50% of the project would be State funded, and the remaining 50% to be locally funded. The Town's Design Consultant, Cardinal Engineering, reviewed bids for completeness, and recommended that the project be awarded to Mizzy Construction, Inc. in the amount of \$1,163,930.00. Terms and conditions of the project require the work to be completed by November 30, 2019, which includes closure of the roadway through the bulk of that time-frame. **Please note that Burnham Street will be CLOSED to through traffic between its intersections with Farmington Avenue and Briar Patch Drive from about April 15, 2019 to November 30, 2019.** Periodic updates will be provided on the Town of Berlin Website.
